

## **Czech and Slovakian League in Cowboy Action Shooting - Rules**

Organized by Asociace westernových střelců (AWS) and Slovenská asociácia westernovej strel'by (SAWS)

- 1) Number of matches, rules
- 2) Location
- 3) Minimum number of stages per match
- 4) Participation of shooters who are not SAWS/AWS members
- 5) Registration fee
- 6) Scoring of individual matches
- 7) Scoring of the league
- 8) Continuous preparation and publishing of actual results
- 9) Prizes and awards
- 11) Location and date of the final award ceremony

1) Number of matches, rules

Czech and Slovakian League in Cowboy Action Shooting (“league”) will consist of six matches. These include national championships of the organizing countries. The whole league will be shot in accordance with SASS rules.

2) Location

Each country will organize the same number of matches. Three matches will be organized in the Czech Republic and three matches in the Slovak Republic. Dates and locations of the matches will be published on the organizers’ web sites.

3) Minimum number of stages per match

Every league match has to consist of at least eight stages of the main match. National championships will be organized for two or more days. Other league matches will be organized as one day matches.

4) Participation of shooters who are not SAWS/AWS members

Czech and Slovakian League is open also for all shooters who are not SAWS/AWS members.

### 5) Match fees

Match fees for national championships will be determined by the organizers. For the other league matches the fee for AWS/SAWS members will be in the amount of EUR 10 (Juniors: EUR 5). The fee on these matches for shooters who are not AWS/SAWS members will be in the amount of EUR 20 (Juniors: EUR 10). This does not apply to national championships where the fee will be in the same amount for all shooters.

### 6) Scoring of individual matches

Scoring by rank will be used for every league main match.

### 7) Scoring of the league

Every shooter will get the number of points that equals his resulting position in his category, i.e. the shooter on the first place will get one point, shooter on second place will get two points and so on. The shooter with the lowest number of points will be the league winner for his category.

The same applies for overall scoring. Each shooter will get the number of points that equals to his overall position.

In case that two or more shooters achieve the same amount of points the totals of their times from matches to which they all participated will be compared.

The prerequisite for participation in the league is that a shooter has to shoot minimum four matches, out of which two must be in the Czech Republic and two in the Slovak Republic. All these matches have to be shot in the same category.

Out of the six league matches the best four match results will be used for the league scoring of each participating shooter.

#### 8) Continuous preparation and publishing of actual results

During the league the results of individual matches and the actual league results will be published on the AWS/SAWS websites.

The league results will always be updated by the organizer of the most recent league match.

Both organizers will use the same software for evaluation of the league matches and the total league results.

SAWS suggest using of Round Up – The Cowboy Scoring System. It can be found as freeware on the following link:

<http://www.hootenoldtown.com/alanbillips/>

#### 9) Prizes and awards

Value of the prizes for the national championships is upon the organizers' decision.

Provision of prizes for the final evaluation of the whole league is the responsibility of the party organizing the last league match. This will be alternating every year between the Czech Republic and the Slovak Republic.

#### 10) Location and date of the final award ceremony

The league will be evaluated and awards given after and at the location of the final league match.
